Beginner Tots Ages 3 - 5

For beginners who have never skated or skaters who are struggling to skate. Join us for a fun introduction to the ice with helpful one-on-one direction from our instructors! Skaters will learn to fall, get back up and skate independently. Skaters will learn to march and glide their way around the rink!

Tots 1 (*skate independently*) Ages 3 - 5

The tot program is designed to introduce basic skating skills to young skaters through a safe and controlled atmosphere using on-ice games and activities. All skaters will need to skate independently (needing little to no assistance marching and getting up). Skaters will learn 2-foot glides, dips, 2-foot hops and introduced to backwards skating! *Skaters who have passed Tot 1 may move to the Learn to Play program!

Tots 2/3 (*skate independently*) Ages 3 - 5

Skaters will learn backwards skating, swizzles, scooter pushes, 1-foot glides and introduced to stopping!

Blades 1 - 6 Ages 6 - 14

The Blades program is designed for skaters to learn the essential skills for ice skating. The six level curriculum introduces the fundamental moves: forward skating, backward skating, stops, edges, crossovers, turns and jumps. Upon completion of the Blades program, skaters will have knowledge of the sport, enabling them to advance to more specialized areas of skating. *Skaters who have passed Blades 1 may move to the Learn to Play program!

Teen/Adult Ages 15+

Intended for the beginner teen/adult skater to promote physical fitness, balance and coordination. The class is divided into four levels, adult skaters will progress at an individual rate while being challenged and motivated.

Jump & Spin Ages 6+

Level 1-3: Pre-requisite: Blades 6

(Participants must wear freestyle skates)

Skaters will learn basic freestyle elements, jumps, spins and spirals in a group lesson.

Edge & Turn Class Ages 6+

Pre-requisite:

(Skaters who have passed Pre-Preliminary MIF)

Skaters will develop and strengthen their edges and turns through drills and skating exercise. Skaters will also be exposed to new types of turns (*brackets, counters, rockers and loops*) to build their readiness for US Figure Skating testing and footwork within skater's routines!
