Negotiations with Norfolk Southern Railroad have been ongoing for several years. The work proposed on this sheet includes land acquisition, Norfolk Southern Railway design review expenses, final design documents, and construction of the roadway improvements. \$5,920,000 in Federal STU funds is allocated for this project with the remainder coming from state MFT funds. Funding is included on the MCRPC Transportation Improvement Program for FY 2023- 2027.

# ARENA FUND CAPITAL PROJECT

<i>PROJECT TITLE</i>	<i>ACCOUNT NUMBER</i>
Arena RTU Replacement & Ice Center Dehumidification Improvements	57107110-72520
<i>PROJECT DESCRIPTION/JUSTIFICATION</i>	
<p>There are two primary Roof Top Units (RTUs) which provide cooling and dehumidification for the Arena. Both of these units are original and showing excessive corrosion from the elements. In addition, both units have been repaired numerous times during their 14 years of service. Furthermore, both units use R-22 refrigerant which can no longer be purchased. This extensive repair history combined with the R-22 refrigerant issue provides few options and replacing the units is recommended. The new units will use the latest refrigerant that is environmentally friendly and much less expensive. In addition, replacing the HVAC and dehumidification equipment for the ice center will also be performed.</p>
